CONTENTS

GNSS Guidance for All Phases of Flight: Practical Results 1
S. J. Leighton, A. E. McGregor, D. Lowe, A. Wolfe and A. A. Macaulay

Integrated use of GPS and GLONASS in Support of the Redesign of Road Networks 15
Dr Ahmed El-Mowafy

Dual Frequency DGPS Service for Combating Ionospheric Interference 29
Ole Ørpen and Henk Zwaan

Assessment of EGNOS Tropospheric Correction Model 37
Nigel Penna, Alan Dodson and Wu Chen

Intelligent Transportation Systems 57
Alan Carter

Legislation Update – Radio and EMC in the Automotive Environment 65
Terry Beadman

Integration of Hydrostatic Pressure Information by Identified Interneurones in the Crab *Carcinus maenas* (L.): Long-Term Recordings 71
P. J. Fraser, A. G. Macdonald, S. F. Cruickshank and M. P. Schraner

Drift of Sea Ice Ridges in the Pechora Sea 81
Kenneth Johannessen, Ove Tobias Gudmestad and Sveinung Løset

Domain and Its Model Based on Neural Networks 97
Xiaolin Zhu, Hanzhen Xu and Junqing Lin

GPS Receiver Performance Enhancement via Inertial Velocity Aiding 105
Dah-Jing Jwo

Low-Cost INS/GPS Integration: Concepts and Testing 119
M. E. Cannon, R. Nayak and G. Lachapelle, O. S. Salychev, V. V. Voronov

Survey Boat Attitude Determination with GPS/IMU Systems 135
Dr Reha Metin Alkan and Prof. Orhan Baykal

Development of Celestial Navigation by the Ancient Maya 145
Douglas T. Peck
